Starting writing and sketching ideas for your portrait and background. You should reference your answers to the art start but can go beyond that. **Remember** your portrait will be your linoleum printing plate that you will print multiple times. Your background can be painted, drawn, collaged, printed out, a magazine or newspaper page, etc, anything that you can access too and can create and print on. You will be making multiple prints so your backgrounds can all be the same, or you can make different ones for each print and submit the one you think is best for your final.
